

TOUCHSCREENS

FLEXIBLE TOUCHSCREEN MONITORS FOR ALL ENVIRONMENTS

The solid and robust professional Touch displays from iiyama are available in various sizes, starting from compact sizes like 10" all the way up to 65".

Turn glass surfaces like restaurant tables and shop windows into interactive digital signage solutions with the **TF15 SERIES** open frame monitors. Built into an eye-catching bezel, the **TF34 SERIES** open frame multi-Touch displays are perfect for interactive digital signage and digital info-points in demanding environments. The versatile interactive displays from the **TF39 SERIES** are available in Full HD (1920x1080) and 4K (3840x2160) resolution, featuring either VA or IPS panel technology, resulting in truly exceptional vibrant and detailed images from all angles.

Suited for extended use up to 24hrs per day, all iiyama Open Frame edge-to-edge design monitors utilise PCAP Touch technology and feature Touch Through-Glass technology.
